

STUDIO  HEALTHCARE

Artwork for Pediatrics
Juvenile and Family Healthcare Environments

Introduction

We at STUDIO E/L are excited to present our newest sourcebook of Artwork for Pediatrics, Family, and Juvenile Healthcare Environments. Within these pages, you will find our latest releases and most popular artwork for juvenile healthcare settings. Our well-seasoned art consultants have curated a broad collection of artwork supported by Evidence-Based Design theory, which strives to promote and enhance healing, well-being, and calm throughout these important care interiors.

Skillfully selected healthcare art can be a positive distraction for young patients and their families and a proven source of stress relief for staff. Accordingly, an effectively curated juvenile art program supports a more welcoming environment that is “de-institutionalized,” friendly – even playful – while being accessible to all.

Our Pediatrics Sourcebook provides a variety of styles and color palettes, and each page of this catalog features artwork that can be installed collectively – so you can confidently “purchase by the page” to ensure natural flow and continuity, knowing that each page of artwork is harmonized through complementary subject matter and colors.

Our team of art consultants is prepared to consult with you to create your inspired art program. We partner with you through every step of the process, including selecting artwork, budgeting, frame design, delivery, and installation.

We look forward to helping you create an uplifting and healthy environment through the benefits of visual artistry.

Gallery Wrapped Canvas

A high-quality canvas, with mirrored borders, also available with hardboard backing for extra durability. Gallery wrapped canvas has a 2" depth (stretched only) or 1- 1/2" depth (when hardbacked). Our inks provide durability and scratch resistance, ideal for commercial use.

All artwork is hard-backed, so it's puncture resistant and comes ready-to-hang with 3-point or 4-point security hardware:

Puncture resistant canvas with hardboard backing.

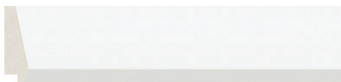

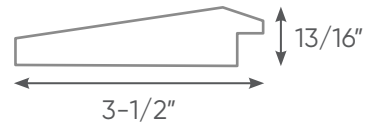

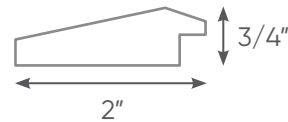

T-head screw

Framed Canvas

A print on canvas, mounted to 1/8" hardboard backing, making the art puncture resistant. Our inks provide durability and scratch resistance, ideal for commercial use. Frame shown is 2" wide. Also available: 3-1/2" wide.

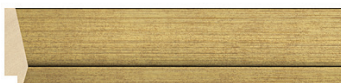

Ask your sales representative about additional frame options.
